

Even-order milestones: one survivor at order 22 and nine at order 24

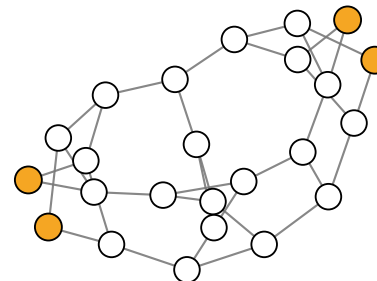

H_{22} : the unique order-22 survivor

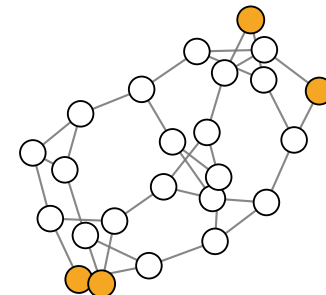

G_4 : blowup, $g = 3$

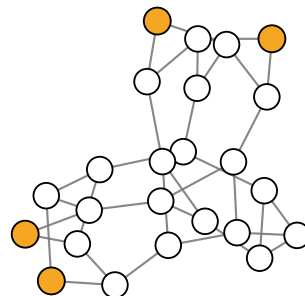

G_5 : primitive, $g = 5$

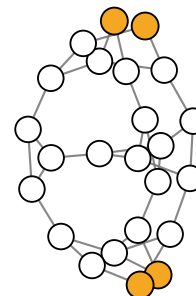

G_6 : blowup, $g = 3$

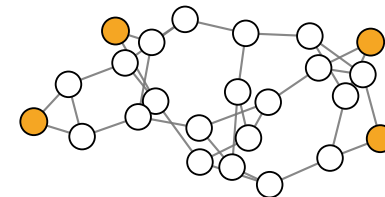

G_7 : blowup, $g = 3$

G_8 : blowup, $g = 3$

G_9 : blowup, $g = 3$

Orange vertices have degree 2. Eight order-24 graphs deflate to H_{22} ; the highlighted G_5 is triangle-free.
